DIOS EXPLORATION INC.

Notes to Interim Financial Statements

For the nine-month period ended September 30, 2014 (unaudited)

(Canadian dollars)

1. NATURE OF OPERATIONS AND CORPORATE INFORMATION

Dios Exploration Inc. (the "Company") is an exploration company with activities in Canada.

2. GOING CONCERN ASSUMPTION

The financial statements have been prepared in compliance with International Financial Reporting Standards (IFRS) and on the basis of the going concern assumption, meaning the Company will be able to realize its assets and discharge its liabilities in the normal course of operations.

Given that the Company has not yet determined whether its mineral properties contain mineral deposits that are economically recoverable, the Company has not yet generated income nor cash flows from its operations. As at September 30, 2014, the Company has a deficit of \$15 088 218 (\$10,147,603 as at December 31, 2013). These material uncertainties cast significant doubt regarding the Company's ability to continue as a going concern.

The Company's ability to continue as a going concern is dependent upon its ability to raise additional financing to further explore its mineral properties. Even if the Company has been successful in the past in doing so, there is no assurance that it will manage to obtain additional financing in the future.

The carrying amounts of assets, liabilities, revenues and expenses presented in the financial statements and the classification used in the statement of financial position have not been adjusted as would be required if the going concern assumption was not appropriate.

3. SUMMARY OF ACCOUNTING POLICIES

Basis presentation

These interim financial statements of the Company were prepared in accordance with IFRS, as issued by the International Accounting Standards Board (IASB) under International Accounting Standard (IAS) 34 - Interim Financial Reporting. These interim financial statements were prepared using the same basis of presentation, accounting policies and methods of computations outlined in Note 4, SUMMARY OF ACCOUNTING POLICIES as described in our financial statements for the year ended December 31, 2013. The interim financial statements do not include all of the notes required in annual financial statements.

Standards, amendments and interpretations to existing standards that are not yet effective and have not been adopted early by the Company

At the date of authorization of these financial statements, certain new standards, amendments and interpretations to existing standards have been published but are not yet effective, and have not been adopted early by the Company.

Management anticipates that all of the pronouncements will be adopted in the Company's accounting policy for the first period beginning after the effective date of the pronouncement. Information on new standards, amendments and interpretations that are expected to be relevant to the Company's financial statements is provided below. Certain other new standards and interpretations have been issued but are not expected to have an impact on the Company's financial statements.

IFRS 9 Financial instruments

In July 2014, the IASB published IFRS 9 which replaces IAS 39, Financial Instruments: Recognition and Measurement (IAS 39). IFRS 9 introduces improvements which include a logical model for classification and measurement of financial assets, a single, forward-looking "expected loss" impairment model and a substantially-reformed approach to hedge accounting. IFRS 9 is effective for annual reporting periods beginning on or after January 1, 2018. Earlier application is permitted. The Company has yet to assess the impact of this new standard on its financial statements.

IFRIC 21, Levies

IFRIC 21 provides guidance on accounting for levies in accordance with IAS 37, Provisions, Contingent Liabilities and Contingent Assets. The interpretation defines a levy as an outflow from an entity imposed by a government in accordance with legislation and confirms that an entity recognizes a liability for a levy only when the triggering event specified in the legislation occurs. Management's analysis is that IFRIC 21 did not have a material impact on the interim financial statements.

Notes to Interim Financial Statements

For the nine-month period ended September 30, 2014 (unaudited)

(Canadian dollars)

4. JUDGMENTS, ESTIMATES AND ASSUMPTIONS

When preparing the financial statements, management undertakes a number of judgments, estimates and assumptions about recognition and measurement of assets, liabilities, income and expenses.

Significant management judgements

The following are significant management judgments in applying the accounting policies of the Company that have the most significant effect on the financial statements.

Recognition of deferred income tax assets and measurement of income tax expense

Management continually evaluates the likelihood that its deferred tax assets could be realized. This requires management to assess whether it is probable that sufficient taxable income will exist in the future to utilize these losses within the carry-forward period. By its nature, this assessment requires significant judgment. To date, management has not recognized any deferred tax assets in excess of existing taxable temporary differences expected to reverse within the carry-forward period.

Going concern

The assessment of the Company's ability to continue as a going concern and to raise sufficient funds to pay for its ongoing operating expenditures, meet its liabilities for the ensuing year and to fund planned and contractual exploration programs, involves judgments based on historical experience and other factors including expectation of future events that are believed to be reasonable under the circumstances. See Note 2 for more information.

Estimation uncertainty

Information about estimates and assumptions that have the most significant effect on recognition and measurement of assets, liabilities, income and expenses is provided below. Actual results may be substantially different.

Impairment of exploration and evaluation assets

Determining if there are any facts and circumstances indicating impairment loss or reversal of impairment losses is a subjective process involving judgment and a number of estimates and interpretations in many cases.

When an indication of impairment loss or a reversal of an impairment loss exists, the recoverable amount of the individual asset must be estimated.

In assessing impairment, the Company must make some estimates and assumptions regarding future circumstances, in particular, whether an economically viable extraction operation can be established, the probability that the expenses will be recover from either future exploitation or sale when the activities have not reached a stage that permits a reasonable assessment of the existence of reserves, the Company's capacity to obtain financial resources necessary to complete the evaluation and development and to renew permits. Estimates and assumptions may change if new information becomes available. If, after expenditure is capitalized, information becomes available suggesting that the recovery of expenditure is unlikely, the amount capitalized is written off in profit or loss in the period when the new information becomes available.

For the quarter ended June 30, 2014, the Company has decided to write-off the Hotish and Shipshaw mining properties for a total of \$4,949,524 due to uncertain potential of uranium exploration in Quebec and the relevance to continue the exploration of Shipshaw property. No reversal of impairment losses has been recognized for the reporting periods.

Share-based payments

The estimation of share-based payment costs requires the selection of an appropriate valuation model and consideration as to the inputs necessary for the valuation model chosen. The Company has made estimates as to the volatility of its own share, the probable life of share options granted and the time of exercise of those share options. The model used by the Company is the Black-Scholes valuation model.

Tax credits receivable

The calculation of the Company's refundable tax credit on qualified exploration expenditure incurred and refundable tax credit involves a degree of estimation and judgment in respect of certain items whose tax treatment cannot be finally determined until a notice of assessment has been issued by the relevant taxation authority and payment has been received. Difference arising between the actual results following final resolution of some of these items and the assumptions made could necessitate adjustments to the refundable tax credit and refundable tax credit, exploration and evaluation assets, and income tax expense in future periods.

Less: salaries capitalized in Exploration and evaluation assets	<u>(47 438)</u>	<u>(76 294)</u>	<u>(140 658)</u>	<u>(230 644)</u>
Salaries and employee benefits expense	<u>7 804</u>	<u>27 777</u>	<u>28 970</u>	<u>146 654</u>

9.2 Share-based payments

The Company has adopted share-based payment plan under which members of the Board of Directors may award options for ordinary shares to directors, officers, employees and consultants. The maximum number of shares issuable under the plan is 6,600,000. The maximum number of common shares which may be reserved for issuance to any one optionee may not exceed 5% of the common shares outstanding at the date of grant.

The exercise price of each option is determined by the Board of Directors and cannot be less than the market value of the ordinary shares on the day prior the award, and the term of the options cannot exceed five years. The options granted vest in stages over a period of 18 months after the grant date, at the rate of 15% per quarter, at the exception of 10%, which may be exercised from the date of the grant. For the options granted to a consultant, it vests in stages over a period of 12 months after the grant, at the rate of 25 % per quarter.

All share-based payments will be settled in equity. The Company has no legal or constructive obligation to repurchase or settle the options. The Company's share options are as follows for the reporting periods presented:

	Options	Weighted average exercise price
		\$
Outstanding as at December 31, 2013	4 220 000	0.23
Expired	(670 000)	0.15
Outstanding as at September 30, 2014	<u>3 550 000</u>	<u>0.25</u>
Exercisable as at September 30, 2014	<u>3 550 000</u>	<u>0.25</u>

No options were granted during the period ending September 30, 2014.

DIOS EXPLORATION INC.
Notes to Interim Financial Statements
For the nine-month period ended September 30, 2014 (unaudited)

(Canadian dollars)

9.2 Share-based payments (continued)

The table below summarizes the information related to share options as at June 30, 2014

Range of exercise price \$	Outstanding options		
	Number of options	Weighted average exercise price \$	Remaining life (years)
0.10 to 0.29	1 960 000	0.19	2.08
0.30 to 0.50	1 590 000	0.32	1.12
	<u>3 550 000</u>		

In total, no employee remuneration expense (all of which related to equity-settled share-based payment transactions) were included in profit or loss for the nine-month period ended September 30, 2014 (\$104 624 for the nine-month period ended September 30, 2013) and credited to Contributed surplus.

10. FINANCE INCOME

	Three-month period ended September 30		Nine-month period ended September 30	
	2014	2013	2014	2013
	\$	\$	\$	\$
Interest income from cash and cash equivalents	762	881	1 785	2 120
Interest income from guaranteed investment certificates	-	-	-	731
Interest income from other investments	-	-	-	3 443
Finance income	<u>762</u>	<u>881</u>	<u>1 785</u>	<u>6 294</u>

11. LOSS PER SHARE

The calculation of basic loss per share is based on the loss for the period divided by the weighted average number of shares in circulation during the period. In calculating the diluted loss per share, potential ordinary shares such as share options and warrants have not been included as they would have the effect of decreasing the loss per share. Decreasing the loss per share would be antidilutive. Details of share options issued that could potentially dilute earnings per share in the future are given in Note 9.2.

	Three-month period ended September 30		Nine-month period ended September 30	
	2014	2013	2014	2013
Net income (loss)	\$ 6,006	\$(45,536)	\$(4,940,615)	\$(249,829)
Weighted average number of shares in circulation	40 070 961	39 170 961	40 070 961	39 170 961
Basic and diluted earnings (loss) per share	\$0.001	\$(0.001)	\$(0.12)	\$(0.006)

There have been no other transactions involving ordinary shares between the reporting date and the date of authorization of these financial statements.

12. ADDITIONAL INFORMATIONS – CASH FLOWS

The changes in working capital items are detailed as follows:

	Nine-month period ended September 30	
	2014	2013
	\$	\$
Good and services tax receivable	29 384	23 781
Receivables	-	1 727
Prepaid expenses and deposit	(1 825)	(4 962)
Trade and other payables	(108 844)	(132 092)
	<u>(81 285)</u>	<u>(111 546)</u>

DIOS EXPLORATION INC.
Notes to Interim Financial Statements
For the nine-month period ended September 30, 2014 (unaudited)

(Canadian dollars)

13. RELATED PARTY TRANSACTIONS

13.1 Transactions with key management personnel

Key management personnel of the Company are members of the Board of Directors, as well as the president, the chief financial officer and the vice-president, exploration. Key management personnel remuneration includes the following expenses:

	Three-month period ended September 30		Nine-month period ended September 30	
	2014	2013	2014	2013
Short-term employee benefits	\$	\$	\$	\$
Salaries including bonuses and benefits	36 750	61 250	110 250	183 750
Professional fees	5 675	5 550	22 975	31 250
Social security costs	2 816	1 791	10 573	12 889
Total short-term employee benefits	45 241	68 591	143 798	227 889
Share-based payments	-	15 366	-	85 857
Total remuneration	45 241	83 957	143 798	313 746

An important part of the remuneration of the President and Vice-President Exploration has been allocated to Exploration and evaluation assets.

13.2 Transactions with a related company

During the period ended September 30, 2014, a company in which a director is an owner, charged geological fees amounting of \$11,654 recorded in Exploration and evaluation assets (\$0 for the period ended September 30, 2013).

14. CAPITAL MANAGEMENT POLICIES AND PROCEDURES

The Company's capital management objectives are:

- to ensure the Company's ability to continue as a going concern;
- to increase the value of the assets of the business; and
- to provide an adequate return to the shareholders.

These objectives will be achieved by identifying the right exploration projects, adding value to these projects and ultimately taking them through to production or sale and cash flow, either with partners or by the Company's own means. The Company monitors capital on the basis of the carrying amount of equity. Capital for the reporting periods under review is summarized in Note 8 and in the statement of changes in equity.

The Company sets the amount of capital in proportion to its overall financing structure, i.e. equity and financial liabilities. The Company manages the capital structure and makes adjustments to it in the light of changes in economic conditions and the risk characteristics of the underlying assets. In order to maintain or adjust the capital structure, the Company may return capital to shareholders, issue new shares, or sell assets to reduce debt.

No changes were made in the objectives, policies and processes for managing capital during the reporting periods.

15. CONTINGENCIES AND COMMITMENTS

The Company is partially financed through the issuance of flow-through shares and, according to tax rules regarding this type of financing, the Company is engaged in realizing mining exploration work.

These tax rules also set deadlines for carrying out the exploration work, which must be performed no later than the earlier of the following dates:

- Two years following the flow-through placements;
- One year after the Company has renounced the tax deductions relating to the exploration work.

However, there is no guarantee that the Company's exploration expenses will qualify as Canadian exploration expenses, even if the Company is committed to taking all the necessary measures in this regard. Refusal of certain expenses by the tax authorities would have a negative tax impact for investors.

(Canadian dollars)

15. CONTINGENCIES AND COMMITMENTS (continued)

During the reporting period ended December 31, 2013, the Company received \$90,000 following flow-through placements for which the Company renounced tax deductions on December 31, 2013. The management is required to fulfill its obligations in the period of one year from the date of renouncement.

The balance of the flow-through financing in 2013 was spent in full on September 30, 2014. The Company has to dedicate these funds to the exploration of Canadian mining properties exploration.

16. SUBSEQUENT EVENT

On October 2, 2014, the Board of Directors of the Company has granted 1,250,000 options under its stock option incentive plan to directors, officers and employee, at an exercise price of \$0.15 per share. The options expire five (5) years from the date of grant.
